

US LUBE GLYCOL ANTIFREEZE

Glycol Antifreeze provides excellent protection of the cooling system under extremes of cold weather. It protects all common cooling system metals including solder, copper, brass, steel, cast iron and aluminum. This formulation is compatible with all other major brands of antifreeze and will not affect automotive hoses and gaskets.

This product is recommended for automobiles and trucks cooling systems. Used in its neat form, it will act to prevent the cooling system from freezing over up to temperatures as low as -45°C . This product is also suitable for heavy-duty use such as for diesel generators and off-road vehicles/equipments.

This is recommended for use in all automobiles requiring an ethylene glycol based product.

Properties

- > Compatible with most commercial antifreeze fluids
- > Prevents freezing over of automobile cooling systems up to -45°C
- > Protects most metals in cooling systems
- > Provides excellent heat rejecting properties

Typical Specifications

Test Description	Method	Unit	1
Specific Gravity @ 15 °C	ASTM D 4052	g/ml	1.082
Boiling Point	-	°C	111
Freezing Point	ASTM D 1177	°C	-45
Appearance	-	-	Green
